'General' Will Stop Here Thurs. May 28

"The General," a Civil War locomotive, and a passenger coach - museum will be displayed in Appomattox May 28.

This is the General's schedule in this area:

Farmville, 8:45 - 10:45 a.m., May 28; Pamplin 11:45 a.m. to 12:05 p.m., May 28; Appomattox, 12:50 - 3 p.m., May 28.

Lynchburg, 4:15-8 p.m., May 28, and 8-10 a.m., May 29; and Bedford, 11-00 a.m. to 8 p.m., May 29.

THE GENERAL, which is on a tour of Virginia, was reconditioned by the Louisville and Nashville Railroad to run under its power. The 108-year-old locomotive, however, is now an oil burner.

On April 12, 1862, the General was stolen at Big Shanty, Ga., by a Union secret agent and 19 raiders, who belived the way would be shortened if the Western and Atlantic Railroad could be severed for a few days. This would be an important link between Atlanta and Chattanooga.

The General's conductor, engineer and shop foreman, however, gave chase and contributed to the recapture of the locomotive.

DURING THE 1864 siege of Atlanta, the General was among four or five locomotives left in the city in an attempt to move a load of ammunition to safety.

The trains could not move out because the Union Army surrounded the city. The Union set fire to the trains, and explosions rocked the area. The General was one of three locomotives to survive although badly damaged.

The General's current tour is being sponsored by the Norfolk and Western Railway, the Virginia Civil War Centennial Commission and the Louisville and Nashville Railroad.

Tour Local Homes

Three county homes have been visited recently by home economics students at Appomattox High School who are studying interior decoration. The Shearer Robertson's home, Spout Spring, Ralph King's home, and the L. E. Thomas' home, both of Appomattox, were included.

Perhaps the most unusual home, according to the girls, is the Shearer Robertson home. This was once a railroad station on the nearby NW line. The original ticket window is still there — now a decorative accent in the foyer. Bedrooms are converted waiting rooms, and a combination of wood paneling and pastel wall colors are used throughout.

Mail Carriers To Distribute Survey Cards

Postmaster Billy Conner announced today that Rural Mail Carriers and Star Route Contractors will begin distributing June 1, 1963. Livestock Survey cards to farmer patrons on their routes about May 21.

Your Post Office assists the Department of Agriculture each year in making this and two other surveys.

Livestock cards returned by farmers to their carriers will be mailed direct to the Virginia Crop Reporting Service in Richmond. Information from each card, if properly reported, will then be tabulated and combined with other reports to give indications of changes in livestock on Old Dominion farms. These indications will be used to establish estimates of the 1963 calf crop, lamb crop, wool production, and spring pig crop as well as plans for fall farrowing.

So next week if you find in your mailbox a card titled "Livestock Survey, June 1, 1963," do not put it aside. It was placed there by your carrier. Postmaster Conner urges that you fill out the card and return it to your carrier as soon as possible. It is important that you return the card for your farm since only a given number of farms will receive these cards and your community will be represented according to the number of cards returned.

Carriers helping with this survey are: W. E. Hancock, Route One; W. C. Hubbard, Route Two; R. W. Stanley, Route Three; S. A. Lawson, Route Four.

492 Register For Wheat Vote May 21st

The Appomattox ASC office reported that 492 persons representing "small farms" or farms now producing less than 15 acres of wheat, registered Monday for the Wheat Quota Vote on May 21. And polling places for the May 21 referendum on marketing quotas for the 1964 crop of wheat were announced today by J. A. Martin, Chairman, Appomattox County Agricultural Stabilization and Conservation Committee. Ballots may be cast by eligible voters from 8 to 6 p.m., on Tuesday, May 21, at the following places:

Cleverhill District
Hix's Store at Hixburg —8 a.m. until 1 p.m.
Old Courthouse Jail — 1 p.m. until 6 p.m.

Southside District
Clay Voting Precinct — 8 p.m. until 1 p.m.
ASCS Office at Appomattox — 1 p.m. until 6 p.m.

Stonewall District
Herndon's Store — 8 a.m. until 1 p.m.
Oakville Voting Precinct — 1 p. m. until 6 p.m.

The Chairman explains that wheat growers eligible to vote in the referendum include (1) all producers of 15 acres or more who have an interest in a 1964 farm wheat acreage allotment, and (2) those farm operators and other wheat growers on their farms) with allotments of less than 15 acres who elected by May 15 to participate as an allotment grower in the 1964 wheat program. Such an election was made by signing the back of the allotment notice for the farm and filing the notice at the ASCS County Office. 492 registered on Monday in Appomattox County.

If at least two - thirds of the growers voting in the referendum approve quotas for 1964 crop wheat, price support will be available to Virginia Growers participating in the wheat program at $2.14 to $2.17 per bushel (on "certificated" wheat — 80 percent of the normal yield of the allotment acres, but not more than the normal yield of the planted acres) and $1.44 to $1.47 per bushel on other ("noncertificated") wheat grown within the allotment; and program payments will be made for diverting wheat acreage to an approved conserving use.

Marketing quota penalties will apply to the "excess" wheat of allotment growers who do not keep within their farm allotments. The marketing quota penalty will apply to farm with allotments of less than 15 acres whose operatords did not choose them to become allotment farms by May 15 if the wheat acreage exceeds the small - farm base.

If the quotas are not approved by the necessary two - thirds of the growers voting, there will be no quotas, no marketing penalties, no diversion payments, and no "certificates" for the 1964 crop of wheat. Price support to growers who keep within their wheat acreage allotments would drop to 50 percent of parity.

Proclamation of wheat marketing quotas is directed by legislation whenever it is determined that the supply of wheat likely would be excessive in the absence of wheat marketing quotas. The supply of wheat for the 1964 - 65 marketing year, without quotas, has been estimated to be 2,835 million bushels — more than double the estimated domestic disappearance and exports.

Marketing quotas have been in effect continuously for the past ten wheat crops, as approved by growers voting in referendum held annually on the question.

Rural route patrons are required to provide mailboxes of the standard approved type. Patrons who are still using boxes of the top - opening type are not required to discard them, provided they have been continuously in use by the same owner and at the same location for many years. They should be kept in good serviceable condition and should be easily served by the carrier from his vehicle.

Names of the owner should be shown on the side of the box visible to the carrier as he approaches, or on the door if boxes are grouped. The box number may be shown on the box. Boxes and supports should be kept painted.
